

**BEFORE THE JOINT ELECTRICITY REGULATORY COMMISSION
FOR THE STATE OF GOA & UNION TERRITORIES**

Filing No.....

Case No.....

IN THE MATTER OF: Petition under the provisions of Section 61, 62 and 86 (1) of the Electricity Act 2003, read with the Joint Electricity Regulatory Commission (Procurement of Renewable energy) Regulations, 2010 issued by the Hon'ble Joint Electricity Regulatory Commission for the state of Goa & Union Territories for the approval of the "Power Purchase Agreement" to be executed between the Electricity Department of Daman and Diu and M/s Waaree Energies Pvt. Ltd., Mumbai (hereinafter referred to as the "selected bidder") appointed under transparent e-tendering/ competitive bidding process.

AND

IN THE MATTER OF Electricity Department of Daman & Diu
(hereinafter referred to as "EDDD" or "The Petitioner")
Daman - Petitioner

Respectfully Sheweth:

1. In terms of provisions of Section 86 (1) (b) and Section 86(1)(e) of the Electricity Act, 2003 read with the Joint Electricity Regulatory Commission (Procurement of Renewable energy) Regulations, 2010 hereinafter referred to as "Regulations") issued by the Joint Electricity Regulatory Commission for the state of Goa & Union Territories (hereinafter referred to as the "Commission") has given the following Renewable Purchase Obligation (RPO) trajectory for the Electricity Department of Daman & Diu (hereinafter referred to as the "petitioner") for FY 2012-13.

Year	Minimum quantum of purchase (in %) from renewable energy sources (in kWh)		
	Total	Solar	Non-Solar
2012-13	3%	0.40%	2.60%

Clause 1.2 of the Regulations also specifies that

"The RPO specified in the financial year 2012-13 shall be continued beyond 2012-13 till any revision is effected by the Commission in this regard".

2. In order to meet the RPO and to promote renewable energy, the petitioner has invited bids (under e-tendering process) under competitive bidding process to select a project developer for procurement of 5 MW of solar power.
3. Location of the project could be anywhere in India. The selected bidder has proposed the location of the power plant in Gujarat. The selected bidder will be responsible for transmit the power to the periphery of Daman and Diu.

Benefits of the Project

- The electrical energy generated from this project would meet the needs of the energy demand of the consumers of the Petitioner.
- The project since uses renewable resource for power generation would benefit global reduction of carbon-dioxide (Green House Gas).
- With the shortage of electricity depletion of fossil fuel resources and increasing awareness against pollution caused by use of coal, oil, natural gases in generation of power, global attention has been focused on harnessing renewable sources of energy like solar, wind, small hydro power, wind etc.
